State Targeted Response Technical Assistance

## Program Overview

### Join us as our expert faculty discusses:

- The fundamentals of MAT (Medication Assisted Treatment) for patients with Opioid Use Disorder
- Buprenorphine prescribing rules, the “72 hour rule”, and DEA license “X-waiver”
- Indications, algorithms, and potential complications of buprenorphine in the ED
- The differences between buprenorphine and methadone
- How the “three day rule” enables physicians to stabilize patients and ensure a warm hand off to an opioid addiction clinic
- Rationale and evidence for community Naloxone distribution, including a discussion of common misconceptions about this medication
- The opportunities to make a long term, life saving impact on patients with Opioid Use Disorder

**November 1, 2018**

**12:30-1:30PM**

**The Red Blazer  
Highlands Room  
72 Manchester St.  
Concord, NH 03301**

**Presenter:**
